- IP65 rated & NEMA 4 rated keypad
- Supports TDES/DUKPT encryption and MK/SK

ID TECH's family of unattended solutions allows users secure and easy integration of cashless payments, while providing a simple consumer experience through an easy-to-use interface.

All Payment Options

The ViVOPay Kiosk III is certified with contactless payment programs such as Mastercard, MCL, AMEX Express pay, Visa VCPS and Discover DPAS. It also supports Apple Pay, Android Pay and Samsung Pay mobile wallets, as well as loyalty programs.

Highest Encryption Security

All 3 products (Spectrum Pro, L100, Kiosk III) are PCI-PTS 4.X certified and support TDES Encryption with DUKPT key management. They are also all SRED certified.

Contactless Acceptance

The ViVOPay Kiosk III is compatible with ISO14443 Type A & B Mifare and ISO 18092 NFC compatible phones. It also supports contactless ticketing functionality found in most transit systems worldwide as well as NFC mobile payments and promotions.

Highly Ruggedized and Tamper Resistant

All three products were designed to withstand the rigors of the outdoor environment, including impact, dust, liquid and other harmful substances. All products are IP 65 rated and includes removal detection switches.

Flexible Communications and Connectivity

Our products provide a wide range of integrated connectivity to communicate with kiosks and acquirer hosts, including USB-HID and RS232.

Eco-friendly

Low power stand-by mode guarantees optimal energy efficiency. At ID TECH, our Commitment to excellence includes our commitment to the environment as well as our commitment to quality, which is why ID TECH is very proud of our ISO 9001:2015 and ISO 14001: 2015 certifications.
