

# VP5300M BUNDLE

## SECURE & EASY PAYMENT INTEGRATION

ATMs, kiosks, parking, transit, vending – whatever your self-service environment entails, we’ve got you covered, with the latest in PCI certified contact EMV and contactless payment technology. ID TECH’s family of unattended solutions allows users secure and easy integration of cashless payments, while providing a simple consumer experience through an easy-to-use interface. The VP5300M is the world’s first PCI SRED certified MSR, EMV contact and EMV contactless all-in-one secure motorized payment acceptance reader.

# VP5300M BUNDLE FEATURES

## All Payment Options

The VP5300M Bundle solution consists of a PCI-certified hybrid insert reader, PCI-certified PIN pad, and NFC contactless antenna allowing customers to use all popular cashless payment options.

## Flexible Communications and Connectivity

Our products provide a wide range of integrated connectivity to communicate with kiosks, acquirer hosts, including USB-HID and RS232, and Ethernet.

## Contactless Acceptance

The VP5300M is compatible with ISO14443, Mifare, and ISO 18092 Peer-to-Peer. The Unattended Bundle supports loyalty programs, EMV payments, and NFC payments. Additionally, the VP5300M supports latest contactless ticketing functionality found in most transit systems worldwide.

## Rugged and Tamper Resistant

All three bundled products are designed to withstand the rigors of outdoor environments and meet a high IK impact rating and IP65/IP42 protection from dust, liquid, and other harmful substances.

## Eco-Friendly

These readers are perfect for solar powered kiosks because they have a low power stand-by mode and stop mode, providing optimal energy consumption. ID TECH's commitment to excellence includes our commitment to the environment as well as our commitment to quality.

## Highest Encryption Security

The VP5300M Bundle provides the highest PCI PTS methods including TDES, AES, and RSA.
