

RKI - REMOTE KEY INJECTION

Concierge's Remote Key Injection (RKI) allows you to quickly and securely load cryptographic keys on a payment solution using factory certificates and eliminates the need for you to ship your terminals to a Key Injection Facility (KIF) - saving you valuable time and resources. RKI offers a fast and secure method to setting your hardware up for the online verification process of a customer's PIN.

RKI BENEFITS

- Deploy Key Injections Anytime, Anywhere
- Faster and More Secure
- Inject Multiple Keys in a Single Session
- Instant, Real-Time Update Service on Terminals
- Eliminate Costs Associated with:
 - Key Management Process
 - Re-Certifications
 - Secure Rooms
 - Shipment of Terminals
 - Specialized Personnel

RKI PROCESS

Log onto Concierge from your computer, laptop, tablet, or mobile phone

Select terminal(s) to request a unique key from the payment processor

Request Made

Encryption Key
Injected into Device

Encryption key provided
by payment processor

ID TECH has established a solid reputation in the industry as a leading payment peripheral provider with magnetic stripe, EMV contact, and EMV contactless expertise. We are also an OEM payment solution provider with the capability and willingness to customize solutions to fit our customers' needs. With a strong foundation and continued success rooted in card readers, ID TECH is currently expanding its reach in the ever-evolving payments industry.

Maintaining ISO 9001 and ISO 14001 certifications and adhering to the highest quality standards, there is a certain trust and confidence our customers have when working with ID TECH. We are committed to increasing security requirements and expanding methods for commerce to ensure an exciting future for the company.
